PROFESSIONAL SUMMARY

A motivated .NET Full Stack Developer with a strong foundation in designing and developing web applications. Proficient in C#, ASP.NET Core, .NET Framework, MVC architecture, and Web APIs, along with relational databases such as SQL Server. Skilled in front-end technologies including HTML5, CSS3, JavaScript, jQuery, Bootstrap and Angular. Familiar with the Software Development Life Cycle (SDLC), RESTful APIs, and building responsive, user-friendly applications. Eager to learn, grow, and contribute to innovative and growth-oriented organizations.

TECHNICAL SKILLS

- Programming Languages:** C#, Type Script, JavaScript
- Frameworks & Technologies:** ASP.NET Core, .NET Framework, Identity, Web APIs, Entity Framework, Dapper, JWT.
- Frontend Technologies:** HTML5, CSS3, Bootstrap, JavaScript, Razor Pages, Views, and Angular.
- Development Tools:** Visual Studio, Visual Studio Code, SQL Server Management Studio.
- Databases:** SQL Server.
- Miscellaneous:** REST APIs, Stored Procedures, Indexing, Performance Optimization.

EXPERIENCE

Software Engineer | Chetu India Pvt. Ltd.

May 2025– Present | Noida, India

- Developed and maintained ASP.NET Core applications using Clean Architecture, Entity Framework Core, SQL Server, and REST APIs.
- Built a Music Management Platform from scratch with Clean Architecture and Generic Repository, implementing Artist, Song, Album, and Top 100 Tracks modules.
- Developed dynamic reports using complex SQL queries, stored procedures, and user-defined filters across multiple database tables.
- Implemented key features in an FMRS application, including Task Management, Employee Management, Task Assignment, and Calendar-based scheduling.
- Developed Payroll Management features by integrating third-party APIs using JWT and OAuth 2.0 authentication.
- Participated in the complete SDLC, including development, testing, code reviews, and deployment, while enhancing application performance through SOLID principles, reusable components, and SQL optimization.

PROJECTS

Parking Management System

- Developed a web-based Parking Management System to automate vehicle entry, exit, parking allocation.
- Implemented role-based authentication and authorization for Admin and Parking Staff using ASP.NET Identity.
- Built modules for vehicle registration, parking slot management, ticket generation, fee calculation, and parking history.
- Developed responsive dashboards for monitoring parking occupancy, revenue, and vehicle records.
- Tech Stack:** ASP.NET Core, MVC, Entity Framework Core, SQL Server, Identity, JavaScript, HTML, CSS, Bootstrap.

The BabySproutes - (E-commerce Web Application)

- Developed an e-commerce platform with secure authentication and role-based access for customers and administrators.
- Implemented product catalog, shopping cart, order management, secure payment integration, and order tracking.
- Built admin modules for managing products, categories, inventory, and customer orders.
- Designed responsive user interfaces to provide a seamless shopping experience across devices.
- Tech Stack:** ASP.NET Core, MVC, Entity Framework Core, SQL Server, Identity, Authorize.Net, JavaScript, HTML, CSS, Bootstrap.

CERTIFICATIONS

- Certification for participant in EVOLUTE'23 under the GLA University with department of Computer Engineering and Applications
- Participated in coding Contest by BCA O Crates and got 7th rank.
- Certification in Basic C# by Hacker Rank.
- Certification in Asp.Net Core 10 by Udemy.

EDUCATION

Bachelor of Computer Application (BCA)

GLA University, Mathura (U.P.), India

2022 – 2025
CPI- 8.43

Secondary Education (10+2)

MD Jain Public School

2021 – 2022
Percent- 83.8

High School (10th)

MD Jain Public School

2019 – 2020
Percent- 73
